**KAMBROOK**

**Model KMO400**  
230-240V~50Hz 1400-1450W  
Output power 900W 2450MHz  
Engineered by Kambrook  
Made in China.

YYWW

**WARNING**  
Kambrook safety first

- Microwave and high voltage inside. Be sure not to remove the enclosure.
- This device is to be serviced only by properly qualified service personnel.

- This appliance is equipped with a grounded plug for your protection against possible shock hazards and should be connected to a properly grounded outlet.
- Disconnect power plug before servicing. Removal of the enclosure with product energized could expose servicemen to hazardous high voltage potential.

YY: Denotes last two digits of the year (eg. 11 = 2011)

WW: Denotes week number (eg. 39 = week 39)

Rating label

## Identification

- Kambrook Essentials Microwave Oven 30L (KMO400) purchased from Kmart stores nationally during 2008 to September 2013 with production date code (PDC) 833 to 1321 inclusive.
- The model number 'KMO400' is printed on the rating label on the back of the appliance.
- The PDC can be located on or near the rating label (see above diagram). This will be a 3 or 4 digital number.
- If there is no PDC number on or near the rating label, refer to the first 4 digits of the serial number.

## Where the product was sold

Kmart nationally

## Defect

A potential component failure.

## Hazard
